LANGER4 New, perfect rewinder for inspection of wrap-around labels

LANGER4 main parameters:

Web width	450/750mm (17.7" / 29.5")	Unwind roll diameter	800/1016mm (31.5" / 40")
Min. web width	300mm (11.8")	Unwind roll weight	max. 300kg (661 lbs)
Min. slit width	15mm (0.6")	Rewind roll diameter	600mm (23.6")
Speed	600mm/min 1968 ft/min)	Core roll diameter	1", 3", 6"

High-speed rewinder for sensitive label materials

LANGER4 is a high-performance rewinder designed for slitting and rewinding tension sensitive materials such as linerless labels, self-adhesive labels, wrap-around labels and monofilms.

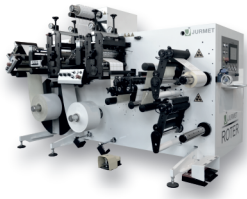

With the right configuration, it can also process pharma labels and aluminium foils with outstanding precision.

A robust mechanical design combined with advanced automation and intelligent software enables LANGER4 to work at speeds of up to 600m/min, while maintaining excellent tension control and energy efficiency.

The system is available with 1 or 2 rewinding stations or a turret rewriter, and can be equipped with inspection cameras and workflow systems. Designed for demanding production environments, LANGER4

MAIN FEATURES:

- Automatic settings
- Energy savings
- Automatic tension control
- Speed: 600 m/min
- Inspection camera or Work Flow system
- Various slitting methods
- 1 or 2 rewinding stations or a turret rewind
- Advanced touch screen panel with job memory
